

Didier Frey

Administrative and Financial Advisory

Didier Frey is the founder of MonConseiller.ch, an advisory activity providing administrative and financial guidance to individuals, self-employed professionals and small organisations.

He holds a Degree in Commercial and Industrial Sciences from the University of Geneva and has developed solid professional experience in the banking, financial and administrative sectors.

During his career, he has worked within banks, asset management companies and public administration, notably at the Debt Enforcement Office of the Canton of Geneva. These experiences have provided him with a thorough understanding of Swiss institutions, financial mechanisms and administrative procedures.

He has also assisted entrepreneurs and small organisations in structuring their administrative processes and supporting certain accounting and administrative procedures, often in cooperation with fiduciaries and other specialised partners.

Through MonConseiller.ch, Didier Frey offers an approach based on rigour, discretion and pragmatism, with the objective of providing clear and structured solutions to administrative situations that can sometimes be complex.

Fluent in several languages and with international experience, particularly in Brazil, he mainly works with clients in Valais and French-speaking Switzerland.

MonConseiller.ch

Administrative and organisational support for individuals, self-employed professionals and small organisations.
